

LOWIEZE HIGH IP54 1X LED GI

Lowie and Lowieze are the noble members of a highly versatile outdoor family. Together, they will turn your garden into a theatrical spectacle, like light binoculars. Lowieze (on a stand) and its little sibling Lowie (for wall mounting) are perfect examples of form blending with function. The cylindrical bulb housings can rotate fully around the body, which is also a cylinder, and can therefore be used as uplighters or downlighters independently of each other. Available with one or two bulb housings.
