VECTOR IP55 1X LED <450LM GI

Vector is a versatile outdoor family for people who like playing with geometry. Vector takes a cylinder as its base and uses pivot points and pedestals to make the fitting highly directional. The bulb holder can be identified by the subtle line which encircles the cylinder. The wall-mounted version of Vector comes with one or two directional bulb holders, or you can choose a simple cylinder which functions as an up- and/or downlighter. Also available for surface mounting on the ceiling.
