

ASCENT

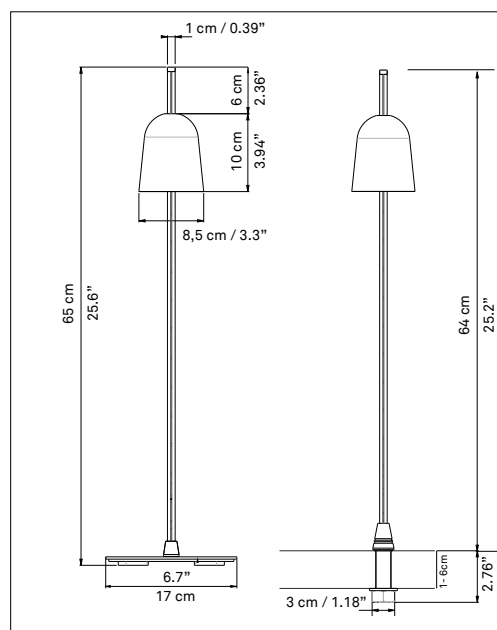

design Daniel Rybakken, 2013

**LUCE
PLAN**

Type: Table
Lamps: LED 10W 2700K 400lm*
Product use: Indoor
Materials: Material lathed head in aluminium sheet, entirely anodized with aluminium tone, painted black on the outside. Stem in black technopolymer. Base in black painted steel. Table bolt with impact-proof device in black polyurethane rubber.
Colors: Black
Description: A new gesture to turn on and regulate light. Ascent offers many levels of light intensity, with a very precise dimmer located on the stem. The small shade runs vertically up and down to adjust the brightness of the light.

Insulation class:   

Reference code: D78 1D780=000001
