

LASTRA 8 RECTANGULAR

Mounting	Pendant
Type of ceiling pendant	Suspension cable
Lamps description	8 x MAX 35W GU4 HRG
Environment	Indoor
Finish	Glass
Technical description	Suspension lamp providing direct light. Lamp body formed by a rectangular, tempered transparent glass sheet, thickness 15 mm. 8 pressed glass diffusers with high-temperature resistant white finish. Injection-molded transparent polycarbonate diffuser support and black PPS lamp-holder. Aluminum attachment grid. Power is distributed to the light sources through two silkscreening processes: deposition of a highly conductive silver paste, followed by deposition of a protective ceramic paint. Electronic transformer on sheet with IGBT type wall dimmer. 4 steel suspension cables and 4 mechanical, die-cast, polished aluminum ceiling fittings, with built-in quick adjustment cord. 30% fiberglass reinforced polyamide wired ceiling fitting; gray painted, injection-molded polycarbonate rose.
