

Wall boxes

Lithoss switches and sockets should be installed on wall boxes with vertical screws (screw distance: 60mm).
For wall boxes of other countries, please contact us for more information.

Lithoss producten installeren op inbouwdozen met verticale vijzen (hartafstand: 60mm).
Voor landspecifieke inbouwdozen, contacteer ons voor meer informatie.

Les interrupteurs Lithoss doivent être installés dans des boîtes d'encastrement avec vis (entre-axe entre les vis : 60mm).
Pour boîtes d'encastrement d'autres pays, n'hésitez pas à nous contacter.

Lithoss - Produkte lassen sich in Einbaudosen mit Schrauben (Schraubenabstand : 60mm) installieren.
Bitte informieren Sie sich vor der Installation über weitere Details.
